maxicrop

Liquified Seaweed

Maxicrop is made from the finest seaweed harvested off of the 12,500 mile Norwegian coastline. This is where mineral rich mountain waters, the Gulf stream, and Arctic waters come together to produce the perfect conditions to grow *Ascophyllum nodosum* seaweed.

DIRECTIONS

Shake well before use.
Prepare for one application only.
Caution: Will stain decks, driveways and sidewalks.

For acid-loving plants — Water with solution of one ounce to one gallon of water every week. Apply solution liberally to foliage and root area.

For acid-loving houseplants — Water with solution of one ounce to one gallon of water every week.

For Hydroponic Systems — Add two teaspoons of product per every 100 gallons of water when adding to your tank every 7-14 days, as needed.
